FORMAZIONE PROFESSIONALE eIDAS - FOUNDATION (EN)

On demand course

Always available h24 - Immediate activation

Course description

The **eIDAS (electronic Identity and Authentication Services) Regulation** has taken on a fundamental role in the digital landscape of the European Union , introducing a harmonized regulatory framework for digital identity and trust services.

CSQA offers a structured training course to help companies and professionals keep up with this evolution and seize the opportunities offered by eIDAS.

The **FOUNDATION** module introduces the eIDAS Regulation and the basic principles of the accreditation scheme, provides a regulatory framework regarding Trust Service providers and a general overview of the standards (ISO 17065, ETSI EN 319 403 and ETSI EN 319 401) and the methods of audit.
